// SUMMARY

Computer engineer and front-end developer with 10+ years building fast, responsive web apps in React, Next.js and TypeScript. I've worked with 80+ clients on SaaS dashboards, CRMs, admin panels and marketing websites. I also handle the API and back-end side, so features ship end to end without waiting on another developer.

// WHAT I DO

Front-End Development

- Pixel-perfect, responsive UIs in React & Next.js
- SaaS dashboards, CRMs & admin panels
- Reusable components with Tailwind & shadcn/ui
- State management, complex forms & data tables
- Animations, transitions & micro-interactions
- Fast, accessible, SEO-ready code

API & Back-End

- REST API integration & auth flows
- Back-end endpoints in Django, Node.js & FastAPI
- Webhooks & third-party service integrations

AI Features

- AI chat & assistant interfaces
- LLM API integration into web apps
- AI-assisted coding with Cursor & Claude
